

Lift Type Offset Disc Harrows

The Series 600 is a heavy-duty disc harrow designed for primary tillage, fire breaks, weed control, and food plots. Suitable for tractors from 30-60 hp. This disc features a tubular box frame in a weight class rugged enough for the farmer or landscaper, yet economical enough for the part-timer.

- Main frame constructed from 1/4" x 3" x 3" tubing
- Cat. I straddle mount, 3-point hitch
- Quick hitch compatible
- Adjustable gang angles from 10°-28°
- 1" square axle shafts
- Maintenance free sealed bearings
- Rigid bearing hangers
- Available with 18", 20", or 22" cut out blades
