

## Wheel Type Wing Fold Tandem Disc Harrows

Built for outstanding cutting and leveling, the Taylor-Way 350 Wing Fold Tandem Disc Harrow is one of the most heavy duty and versatile implements available. Backed by years of Taylor-Way experience, its durability will speak for itself when you see the premium construction and features.

With nearly 40 options in narrow and wide frame configurations, the 350 is not only engineered for performance, but the hydraulic assisted wing fold design makes maneuverability and transport simple... all done right from your tractor seat! Even in the toughest conditions, the sturdy frame adds stability and weight where you need it the most. High carbon, square gang axles are built to deliver maximum penetration, while all the disc and spool spacing options help maintain clearance and optimum pulverization. You can trust your biggest jobs to the Taylor-Way 350.

|                          | <b>Narrow Frame</b> | <b>Wide Frame</b> |
|--------------------------|---------------------|-------------------|
| Cutting Width Range      | 14' 10" to 17' 5"   | 18' 8" to 21' 11" |
| Avg. Weight per Blade    | 119 lbs             | 119 lbs           |
| Transport Width          | 10' 6"              | 14' 6"            |
| Wheel Tread              | 100" width          | 136" width        |
| Disc Spacing             | 7½", 9" or combo    | 7½", 9" or combo  |
| Blade Diameter           | 22"                 | 22"               |
| Blade Thickness          | 6 gauge             | 6 gauge           |
| Transport Cylinder/Hoses | 4" x 8"             | 4" x 8"           |
| Wing Cylinders           | 2½" x 16"           | 2½" x 16"         |
| Tongue Jack              | 3000 lb standard    | 3000 lb standard  |
